

ENGIVERSE ENGINEERING LLP.

Vision:

"To become India's most trusted hub for integrated engineering and digital innovation

ENGIVERSE ENGINEERING LLP

where creativity meets precision to build a smarter, sustainable, and technologically empowered future."

Mission:

To build long-term partnerships with clients by offering value-driven and future-ready solution

Core Business Activities:

A. Engineering Design Services:-

- Product Design & 3D Modelings.
- Drafting & CAD Automation.
- Finite Element Analysis (FEA) & CFD Simulation.
- Mechanical design.
- Electrical design.
- Electronics design.

B. Software Services:-

- Custom Engineering Software Development.
- Software Testing & Deployment.
- Web site & App Development.
- IoT & Embedded Systems

Target Markets:

- International Clients.
- Primary Regions: USA, Europe, and Middle East.
- Client Type: OEMs, Engineering Firms, EPC Companies, Startups.

Core Values:

- **Innovation:** Continuously improving and adopting emerging technologies to deliver smart engineering solutions.
- **Quality:** Ensuring precision, reliability, and excellence in every design and software

project.

- **Integrity**: Building trust through transparency and ethical business practices.
- **Collaboration**: Working closely with clients and partners to achieve mutual growth and success.
- **Sustainability**: Committing to responsible engineering that supports a greener and more efficient future. 

Infrastructure & Tools

Engineering Tools: AutoCAD, SolidWorks, CATIA, ANSYS.

Software Tools: Python, MATLAB, JavaScript, C++

Collaboration Tools: Microsoft Teams, Zoom, Slack, Google Workspace.

Future Growth Plans

- Register the company officially under MCA (India).
- Obtain ISO 9001 & ISO 27001 certifications.
- Expand into global engineering and software markets.
- Build proprietary digital engineering platforms.
- Recruit and train specialised technical teams.

About ENGIVERSE ENG LLP:-

ENGIVERSE is a forward-thinking engineering and technology company focused on delivering world-class design and software solutions to global industries smarter faster, and more sustainable solutions — from product concept to implementation. By blending engineering precision with digital innovation, the company aims to empower clients with smarter, faster, and more sustainable solutions — from product concept to implementation
